# KINDERGARTEN: FRENCH EXCEPTION

« In French schools around the world, the school of confidence is built from nursery school onwards. »

The " école maternelle " stage (from 3 to 6 years old) (= Preschool, pre-kindergarten and kindergarten) is a French specificity and whole curriculum. It allows children to be schooled very early in order to provide them a caring environment and an educational project offering school activities that respect the child's rhythms.

The principles of the French-style kindergarten applied in Saint Ange:

- **becoming autonomous**, expressing oneself and developing one's creativity
- **based on play**, manipulation, discovery and exploration
- **start learning to read, write and count**
- **discovering languages and cultures**: French as the main language, English as a progressive language and developing Vietnamese.

2

Two French-speaking assistants per kindergarten class in addition to the teacher! This is a specificity of Saint Ange!

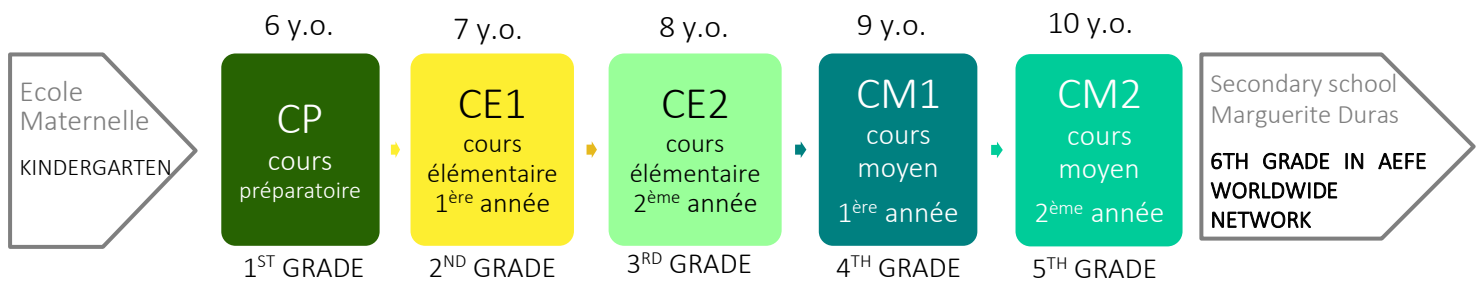

# PRIMARY SCHOOLS: TOWARDS EXCELLENCE

100%

100% of the Saint Ange students who wished to join the French secondary school Marguerite Duras in Ho Chi Minh City were accepted!

In primary schools, your child discovers new possibilities of autonomy, and multiplies personal initiatives in a more academic learning environment.

Limited number of students per class (no more than 22)

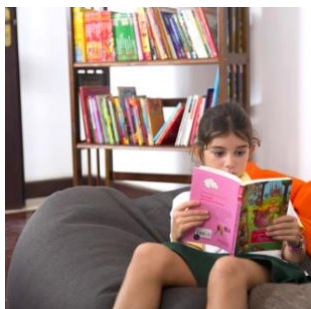

French classes are reinforced and English is taught daily!

**French** is the language of communication in the school and is taught through the full curriculum certified by the AEFÉ. In this French-speaking environment, children who do not yet speak French quickly make great progress. Some become fluent after only 2 years.

**What about English in all this?** In primary school, 5 hours of English are taught per week including 2 hours where the children also discover other disciplines in English such as sport or art education!

*Subjects taught in primary school:*

- ✓ French & English
- ✓ Mathematics
- ✓ Physical and sports education
- ✓ Humanist culture: history, geography
- ✓ Experimental sciences and technology
- ✓ Artistic practices and history of the arts
- ✓ Usual information and communication techniques
- ✓ Civic and moral education

## ASSETS OF SAINT ANGE

### A MULTITUDE OF EXTRA-CURRICULAR ACTIVITIES

Numerous events and outings are organised during the school year.

**Sports.** The school has its own swimming pool for learning to swim and supervised leisure time. With the open courtyard overlooking the river and a dedicated gym, your child will have many opportunities to practice physical activity under the supervision of their teacher.

**Saint Ange FC** is a club that allows students to play football regularly both inside and outside the school. They regularly meet other teams of their age and level.

**Many school outings** are organised outside the school. They are encouraged as part of the French school curriculum for curiosity, open-mindedness and discovery of the world around your child.

**Regular events** take place within the school. The international calendar provides many opportunities for children to prepare with their teacher for public events or for their classmates. Decorations, shows, lectures, culinary discoveries, the school year is rhythmic and dynamic!

### QUALITY & HEALTHY DIET IN THE KID'S PLATES

**Western and local meals** are prepared on site by our gourmet chef according to a specific diet plan **based on your children's needs**. His preparations are really appreciated from the kids and from the teachers.

On many occasions, your children are brought to cook recipes, accompanied by their supervisors. In particular, they discover French recipes and gastronomy.

## NURSERY: DEVELOPMENT EVERY DAY

NEW IN 2021

A 3rd location at the start of the new school year!

Saint Ange will welcome the little ones from the nursery on a 3rd location from the start of the school year 2021! Thus, the main building will remain the primary campus and the current nursery building, opposite, will welcome the kindergarten children!

Each building will thus have numerous classrooms dedicated to each level. Each class will have its own library/reading corner and art room. In elementary school, students will also benefit from a new computer room / new technologies!

The unique playground in the main building of the Saint Ange Primary School is very airy as it overlooks the Saigon River and is safe and secure. This gives the children an unobstructed view of nature every day. A canopy protects them from the sun.

Saint Ange also has a private swimming pool and a room dedicated to sports.

### ON-SITE SECURITY TEAM

A team of security guards ensures the safety of your children around and inside the Saint Ange campuses. They are responsible for the sanitary rules and the comfort of parents and students on their arrival and when leaving the school.
